

AIRCHOC®

MAINTENANCE PROGRAM

THE BEST COST EFFECTIVE SOLUTION

EASY

- 10 minutes to replace the clogged mechanism

TIMELY

- Speed of information : no need to wait for a technician

COST EFFECTIVE MAINTENANCE

and environment preserved

To eliminate the risk of production stoppage or excessive waiting time for a maintenance contractor, STANAM INDUSTRIES has developed a new maintenance system :

1. The customer has cases in stock. In the event of a need, he can disassemble the clogged mechanism and replace it with the one in the case.
2. He sends us back by transport the clogged mechanism in the case. We carry out the maintenance and send the case back to the customer so that he always has a replacement mechanism.
